

## APPENDIX A

2. The self-propelled vehicle as set forth in Claim 14, further comprising:  
a front wheel portion and a truck portion, wherein  
the front wheel portion has the driving portion and the steering portion,  
the front wheel portion is detachably secured to the forward end of the truck portion,  
the front wheel portion which is detached from the truck portion can be attached to  
another conveying means.

5. The self-propelled vehicle as set forth in Claim 14, wherein the steering handle is  
reversely turned toward the steerable wheel.

6. The self-propelled vehicle as set forth in Claim 5, wherein the steering handle  
comprises:  
handle stems arranged at an upper end of a front wheel suspending portion,  
the handle stems fixed to the front wheel suspending portion,  
the handle stems adapted to be turned to rise and fall longitudinally;  
a handle bar fixed to the handle stems generally at a right angle with respect to the  
handle stems,  
the handle bar arranged to be able to be held to operate the vehicle by an operator  
which operates the vehicle for a forward run on a back side of the steerable wheel and a  
backward run in front of the steerable wheel.

103 7. The self-propelled vehicle as set forth in Claim 14, wherein said seat has arm rests  
and is adapted to seat the operator thereon for a forward run, said seat being swivelable to  
turn its seating direction for a backward run, wherein the seat is adapted so that it can convey  
a person other than the operator in a seated position for the backward run.

102 8. The self-propelled vehicle as set forth in Claim 7, wherein the seat is made  
horizontally turnable by 360 degrees and can be properly fixed at a desired angular position.

9. The self-propelled vehicle as set forth in Claim 14, further comprising a removable supporting bar, said supporting bar for supporting the operator riding in a standing position.

✓ 10. The self-propelled vehicle as set forth in Claim 14, wherein the self-propelled vehicle is self-propelled at a speed substantially equal to human walking speed.

109 11. The self-propelled vehicle as set forth in Claim 14, wherein the driving portion is comprised of an electric motor, and in that a power supply to be supplied to the driving portion is formed to have a small capacity.

✓ 12. The self-propelled vehicle as set forth in Claim 14, further comprising two rear wheels at a rear end portion, wherein the driving portion drives said steerable wheel.

103 13. A self-propelled vehicle as recited in Claim 14, wherein said handle is a steering wheel.

14. A self-propelled vehicle comprising:  
a driving portion which can be selectively switched between a forward driving mode and a backward driving mode,

the driving portion driving the vehicle forward when the driving portion is in the forward driving mode and driving the vehicle backward when the driving portion is in the backward driving mode,

a seat which is swivelable and removable, a steering portion which comprises at least one steerable wheel and at least one steering handle,

the steering handle being rotatable from one side of a hinge point to an opposite side of the hinge point,

whereby the vehicle can be operated forward or backward by an operator riding on the vehicle and the vehicle can be run backward with an operator not riding on the vehicle.
